HISTORY

The idea of establishing EPCONT in Egypt came as a result of increasing heavily demands on modern technologies and related advanced and electronic system which includes Data & Telecom, Safety and Security, Audio Visual ,Power systems and Automation . This has resorted to the formation of a company specializing in this area and part nered with the major manufacturers and suppliers with globally most recognized brands, taking into account the principles of quality and safety in Saudi Arabia to serve this sector with internationally certified quality products with high durability along with our commitment to customer service through highly qualified engineers and technicians with high expertise in this area. And now, we represent the best recognized manufacturers and brands worldwide to provide and serve the Saudi, Gulf, and Arab Regions, as we are look at the long term within our strategic plan to target these markets in these important regions.

VISION & MISSION

Our goal is to become a company with strength in technology and pro- viding integrated systems solutions for projects with our commitment to provide effective manner in terms of cost, quality and professional implementation.

Our principle was founded to provide values on designing and delivering special solutions to satisfy the needs of our customers and provide high quality services and provide them with technical support by following the basic elements of our program. We are working to increase the capabilities of the company continued to offer technical implementation of quality projects at all levels. In that sense, we were able to access a wealth of technical and financial resourc- es necessary for the implementation of projects of any size or level.

Our experience is to design and building many of the residential projects, commercial complexes, industrial buildings, and government institutions. And provide those solutions and services, which made us one of the leading companies through working on the supply, installation and maintenance of a wide range of equipment, systems and services to these buildings.

THE BRAND IS OUR TOUCHSTONE.

CUSTOMER SATISFACTION IS PARAMOUNT

INTEGRITY IS OUR WAY OF LIFE.

INNOVATION LEADS TO VICTORY IN THE PERFORMANCE.

OUR SUCCESS DEPENDS ON COOPERATION.

Our strength is to ensure the success of ourselves and our clients' success in their projects and we strive to stay on top of today's and tomorrow's technology to ensure the best tools available to the user.
